

## Newtown School District Sandy Hook Elementary School

The federal No Child Left Behind (NCLB) Act of 2001 requires a statewide school accountability system. As part of this system, school districts receiving federal dollars based on the percentage of district students in poverty (referred to as Title I funds) must prepare and disseminate annual accountability reports for each school in the district. In Connecticut, the reports for elementary and middle schools present the performance of students in mathematics and reading on the Connecticut Mastery Test (CMT), as well as information about the qualifications of teachers based on the federal definition of "highly qualified" teachers.

## Adequate Yearly Progress

The state is required to determine annually if every school is making adequate yearly progress (AYP) toward reaching the goal, by 2014, of having 100 percent of its students scoring at or above the Proficient level in mathematics and reading on the CMT. For a school to have made AYP, the following criteria must have been met by all students in the school and by each subgroup (major racial and ethnic groups, students in poverty, students with disabilities and English language learners): (1) 95 percent participation on both the mathematics and reading CMT; (2) achievement of the AYP target percentage at or above Proficient in mathematics and reading on the CMT; and (3) achievement of the AYP target for an additional academic indicator, 70 percent at or above Basic on the writing subtest of the CMT or improvement from the previous year. If a school does not make AYP for two consecutive years, it will be identified as "in need of improvement." More information about AYP can be found on Page 2 of this report.

The table below shows this school's performance on the AYP indicators. A "No" under the AYP Target Met column indicates an area in which the AYP criteria was not met. Only students who were enrolled in this school for the full academic year were inlcuded in these calculations.

Legend:

- : Fewer than 11 students tested for Students Overall; Fewer than 40 students tested for subgroups
* It is possible for a subgroup to be of sufficient size ( 40 or greater) for the calculation of the participation rate, but not of sufficient size (fewer than 40) for the calculation of the percent at or above proficient. This is due to the omission of absent students from the calculation of the percent at or above proficient. If a school does not have the required 95 percent participation with 40 or more students, it will not have made AYP, regardless of the subgroup size for the percent at or above proficient calculation.
** For any school or subgroup that did not meet the 95 percent participation rate criterion, a two- and three-year average participation rate using 2010, 2009, and 2008 CMT is calculated. If the two-year or three-year average was greater than the current participation rate, it was used for the AYP analysis.

NCLB requires assessment data to be reported by differenct achievement levels. The table below shows the percentage of students scoring at or above the Basic, Proficient, and Advanced levels on the spring 2010 CMT. The numbers on this page were calculated only for groups of 20 or more. The percentage at or above Proficient will not be the same number as on the previous page. The number on the previous page is based on a federally approved AYP calculation used to analyze the adequate yearly progress of schools and districts. In addition, it includes only those students who were in the school for a full academic year; the number on this page includes all students, regardless of their length of time in the school.

## Qualifications of Teachers Teaching in the Core Academic Areas

## Sandy Hook Elementary School

## Table 1. General Information

These data are provided to describe your school because the NCLB law requires that poor or minority students are not taught by inexperienced, unqualified, or out-of-field teachers at a higher rate than other students. In the CSDE teacher quality analysis, each public school was assigned to a quartile based on the percentage of students in poverty, the percentage of minority students, and the percentage of teachers with two or less years of experience. The state percentage of inexperienced teachers is 16.6 while the percentage in high poverty/minority schools is approximately 22 . The percentage in low poverty/minority schools is approximately 15 .

| Is this school in the high poverty quartile?: | No |
| :--- | :---: |
| Is this school in the low poverty quartile?: | Yes |
| Is this school in the high minority quartile?: | No |
| Is this school in the low minority quartile?: | No |
| Is this school in the high inexperience quartile?: | No |
| Is this school in the low inexperience quartile?: | No |
| State Percent Poverty: | 4.0 |
| State Percent Minority: | 10.6 |
| Percent of Teachers 2 or less years of experience: | 6.7 |
| School percentage of classes taught by teachers holding emergency or temporary certification: | 0.0 |
| District percentage of classes taught by teachers holding emergency or temporary certification | 0.0 |
| State percentage of classes taught by teachers holding emergency or temporary certification | 0.3 |
